WORK EXPERIENCE

References available upon request

- **3D Artist** ***Jan. 2026 - Present***
  Deadbody Games
  - *Develop visual concepts and establish artistic direction for each project, iterating on designs based on team feedback and critique*
  - *Collaborate in team discussions to brainstorm ideas, communicate visual concepts, and align artistic decisions with the project's overall vision*
  - *Lead all art production as the team's sole artist, ensuring visual consistency across project assets*
- **3D Artist** ***Aug. 2023 - Present***
  Saphead Studios
  - *Serve as studio's primary 3D artist, leading character & environment modeling, rigging, and animation across multiple games*
  - *Contribute to ongoing production planning through regular team meetings and problem solving*
  - *Balance long-term studio responsibilities and project deadlines while maintaining a full-time university course load of up to 20 credits per term*
- **Instructor** ***Aug. 2026 - Present***
  Game U
  - *Deliver ~16 one-on-one lessons per week, teaching students a range of creative and technical disciplines from game design & programming, to concept art, to 3D animation*
  - *Develop and adapt lesson plans in real time to accommodate individual learning goals, skill levels, and ongoing student / project needs.*

PROJECTS

- **500 Finger Fillet** ***Jan. 2026 - Present***
  Deadbody Games
  - *Executed end-to-end 3D asset creation, including concepting, modeling, rigging, animation, texturing, and Unity integration, while defining the game's cohesive low -poly art direction across all assets*
  - *Produced both organic and mechanical assets, implementing advanced rigging and animation systems in Maya & Unity. Built modular rigs including detachable anatomy and articulated machinery*
- **CrowHallow** ***Jan. 2026 - Present***
  Saphead Studios
  - *Directed design and gameplay systems across a 1-year dev cycle; concept, modeled, rigged, and animated 7 unique characters, and built real-time environments in Unity with a PS1-inspired visual style*
  - *Implemented core engine features, animation controllers/blendtrees, and upgrades while shaping the main gameplay loop for a retro FPS*
  - *Scheduled meetings, directed brainstorm and lead a team of 10 full time student devs to manage their time and workload & tasking*

SKILLS

- Rigging
- Animation
- Hard Surface Modeling
- Character Modeling
- Tools Programming
- UVing
- Texturing
- Digital Painting
- Hand Drawing
- Lighting
- Optimization
- Implementation
- 3D Visualization
- Musician

SOFTWARE

- Maya
- Unity
- Substance Painter
- HIK Retargeting
- Material Maker
- Shader Graph
- C# , Python
- Photoshop
- Github
- Git / Gitbash
- Google / Office Suite

EDUCATION

Drexel University

Bachelor in Game Design and Production

Minor in Animation & VFX

Graduated 2026 3.45 GPA

FAVORITE GAMES

- Blasphemous 1 & 2
- Inscryption
- CoD Zombies
- Devil Daggers
- Minecraft
